

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Name of the substance Husqvarna XP Power 4

Identification number

Registration number

Synonyms Unleaded Gasoline (all grades, RON 92,95,98)

Product code 583 95 59-01 (5L), 583 95 59-02 (25L)

Issue date 20-March-2013

Version number 01 **Revision date** Supersedes date

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Petrol for 4-stroke engine.

Uses advised against Use in accordance with supplier's recommendations.

1.3. Details of the supplier of the safety data sheet

Supplier

Company name Husqvarna AB Drottninggatan 2 **Address** 036-14 65 00 **Telephone**

e-mail sds.info@husqvarna.se **Contact person Accessory Department** 1.4. Emergency telephone +1-760-476-3961 (Access code 333721) number

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Directive 67/548/EEC or 1999/45/EC as amended

This preparation is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification F;R11, Xn;R65, Xi;R38, R67, N;R51/53

The full text for all R-phrases is displayed in section 16.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards

H225 - Highly flammable liquid and Flammable liquids Category 2

vapour.

Health hazards

Skin corrosion/irritation H315 - Causes skin irritation. Category 2

Specific target organ toxicity - single Category 3 narcotic effects H336 - May cause drowsiness or

exposure dizziness Category 1

H304 - May be fatal if swallowed

and enters airways.

Environmental hazards

Aspiration hazard

Hazardous to the aquatic environment, Category 2 H411 - Toxic to aquatic life with

long-term aquatic hazard long lasting effects.

Hazard summary

Physical hazards Highly flammable.

Health hazards Irritating to skin. Harmful: may cause lung damage if swallowed. Vapours may cause drowsiness

and dizziness. Occupational exposure to the substance or mixture may cause adverse health

effects.

Environmental hazards Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Husqvarna XP Power 4 SDS EU 1/9

912709 Version No.: 01 Revision date: -Issue date: 20-March-2013

Specific hazards

Vapors may form explosive vapor/air mixtures. Vapours are heavier than air and may travel along the floor and in the bottom of containers. Swallowing or vomiting of the liquid may result in aspiration into the lungs. Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. May cause central nervous system effects. Breathing of high concentrations may cause dizziness, light-headedness, headache, nausea and loss of co-ordination. Continued inhalation may result in unconsciousness. Direct contact with eyes may cause temporary irritation. Prolonged or repeated contact may dry skin and cause dermatitis.

Main symptoms

Irritating and may cause redness and pain. Defatting of the skin. Dermatitis. May cause eye irritation on direct contact. In high concentrations, mists/vapors may irritate throat and respiratory system and cause coughing. Ingestion may cause irritation and malaise. Vapours have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Be aware that symptoms of chemical pneumonia (shortness of breath) may occur several hours after exposure.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: Gasoline

Identification number

Hazard pictograms

Signal word Danger

Hazard statements H225 - Highly flammable liquid and vapour.

H304 - May be fatal if swallowed and enters airways.

H315 - Causes skin irritation.

H336 - May cause drowsiness or dizziness. H411 - Toxic to aquatic life with long lasting effects.

Precautionary statements

Prevention P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

P243 - Take precautionary measures against static discharge.

P241 - Use explosion-proof electrical/ventilating/lighting// equipment.

P242 - Use only non-sparking tools.

P240 - Ground/bond container and receiving equipment.

P233 - Keep container tightly closed.

P271 - Use only outdoors or in a well-ventilated area.

P261 - Avoid breathing mist or vapour.

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

P264 - Wash thoroughly after handling. P273 - Avoid release to the environment.

Response P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician.

P331 - Do NOT induce vomiting.

P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated

clothing. Rinse skin with water/shower.

P332 + P313 - If skin irritation occurs: Get medical advice/attention. P362 - Take off contaminated clothing and wash before reuse.

P304 + P340 - IF INHALED: Remove to fresh air and keep at rest in a position comfortable for

breathing.

P312 - Call a POISON CENTRE or doctor/physician if you feel unwell.

P370 + P378 - In case of fire: Use foam, carbon dioxide, dry powder for extinction.

P391 - Collect spillage.

Storage P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.

P235 - Keep cool. P405 - Store locked up.

Disposal P501 - Dispose of contents/container in accordance with local/regional/national/international

regulations.

Supplemental label information Not applicable.

2.3. Other hazards Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.1. Substances

Husqvarna XP Power 4 SDS EU

Chemical name CAS-No. / EC No. REACH Registration No. INDEX No. **Notes**

Gasoline 90 - 10086290-81-5 649-378-00-4

289-220-8

Classification: **DSD:** F+;R12, Xn;R65, Xi;R38, R67, N;R51-53

Flam. Liq. 1;H224, Asp. Tox. 1;H304, Skin Irrit. 2;H315, STOT SE 3;H336, Aquatic

Chronic 2:H411

CLP: Regulation No. 1272/2008. DSD: Directive 67/548/EEC.

#: This substance has been assigned Community workplace exposure limit(s).

Composition comments All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in

percent by volume.

The full text for all R- and H-phrases is displayed in section 16.

SECTION 4: First aid measures

General information Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere

to affected area. Call an ambulance. Continue flushing during transport to hospital.

4.1. Description of first aid measures

Inhalation Move to fresh air. If breathing is difficult, give oxygen. Call a physician if symptoms develop or

persist.

Skin contact Immediately remove contaminated clothing. Wash with soap and water. Continue to rinse for at

least 15 minutes. In case of rashes, wounds or other skin disorders: Seek medical attention and

bring along these instructions.

Eye contact Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open

eyelids wide apart. If irritation occurs, get medical assistance.

Ingestion Immediately rinse mouth and drink plenty of water or milk. Keep person under observation. Do not

induce vomiting. If vomiting occurs, keep head low. Transport immediately to hospital and take

these instructions.

4.2. Most important symptoms and effects, both acute and

delayed

Irritating and may cause redness and pain. Defatting of the skin. Dermatitis. Ingestion may cause irritation and malaise. Vapours may cause drowsiness and dizziness. In high concentrations, mists/vapors may irritate throat and respiratory system and cause coughing. May cause eye

irritation on direct contact.

4.3. Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Be aware that symptoms of chemical pneumonia (shortness of breath) may occur several hours after exposure.

SECTION 5: Firefighting measures

General fire hazards The product is highly flammable, and explosive vapour/air mixtures may be formed. Material will

float and can be re-ignited on surface of water.

5.1. Extinguishing media

Suitable extinguishing

media

Foam. Dry powder. Carbon dioxide (CO2). Water fog.

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture By heating and fire, irritating vapours/gases may be formed.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in

the workplace.

Special fire fighting procedures

Move container from fire area if it can be done without risk. Use water spray to cool unopened containers. Cool containers exposed to flames with water until well after the fire is out.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). In case of spills, beware of slippery floors and surfaces. Avoid breathing mist or vapour. Avoid contact with skin and eyes. Wear protective clothing as described in section 8 of this safety data sheet.

Keep unnecessary personnel away. Wear protective clothing as described in Section 8 of this For emergency responders safety data sheet.

SDS EU Husqvarna XP Power 4 3/9

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not allow to enter drains, sewers or watercourses. Environmental manager must be informed of all major releases.

6.3. Methods and material for containment and cleaning up

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.

Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Wash area with soap and water.

Small Spills:

Never return spills in original containers for re-use. Remove sources of ignition. Beware of the explosion danger. Absorb spillage with oil-absorbing material. Clean contaminated area with oil-removing material.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Keep away from heat, spark, open flames and other sources of ignition. Take precautionary measures against static discharges. Ground container and transfer equipment to eliminate static electric sparks. Use only non-sparking tools. Use only in well-ventilated areas. Avoid breathing mists or vapours. Avoid contact with skin, eyes and clothing. Wear protective clothing as described in Section 8 of this safety data sheet. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using the product. Be aware of potential for surfaces to become slippery. Observe good industrial hygiene practices. Always remove oil with soap and water or skin cleaning agent, never use organic solvents. Do not use oil-contaminated clothing or shoes, and do not put rags moistened with oil into pockets.

7.2. Conditions for safe storage, including any incompatibilities

Keep away from ignition, flame and heat sources. Keep container tightly closed. Store in a cool, dry, well-ventilated place. Store locked up. Store away from incompatible materials.

7.3. Specific end use(s)

Petrol for 2-stroke engine.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Bulgaria. OELs. Regulation No 13 on protection of workers against risks of exposure to chemical agents at work

Components	Туре	Value	
Gasoline (CAS 86290-81-5)	TWA	300 mg/m3

Biological limit values

procedures

Recommended monitoring

Not available. Derived no-effect level (DNEL)

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering

controls

Use explosion-proof equipment. Provide adequate ventilation and minimise the risk of inhalation

of vapours. Provide easy access to water supply and eye wash facilities.

Individual protection measures, such as personal protective equipment

General information Personal protective equipment should be chosen according to the CEN standards and in

discussion with the supplier of the personal protective equipment. Make sure to provide adequate

control by applying the "COSHH Essentials" procedure.

Eye/face protection

Risk of contact: Wear safety glasses with side shields (or goggles).

Skin protection - Hand protection

Wear protective gloves. Polyvinyl alcohol (PVAL), Viton/Butyl or Barrier® (PE/PA/PE) gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable.

Suitable gloves can be recommended by the glove supplier.

- Other Wear appropriate clothing to prevent repeated or prolonged skin contact.

Respiratory protection In case of inadequate ventilation or risk of inhalation of vapours, use suitable respiratory

equipment with gas filter (type A2). Wear air-supplied mask in confined areas. Seek advice from

local supervisor.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material

and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. When using, do not eat, drink or smoke. Launder contaminated clothing before reuse. Private clothes and working clothes should be kept

Environmental exposure

controls

Environmental manager must be informed of all major spillages.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Oxidizing properties Not oxidizing.

9.2. Other informationNo relevant additional information available.

SECTION 10: Stability and reactivity

10.1. ReactivityThe product is non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.10.3. Possibility of hazardous Hazardous polymerisation does not occur.

reactions

10.4. Conditions to avoid Heat, sparks, flames, elevated temperatures. Contact with incompatible materials.

10.5. Incompatible materials Strong oxidising agents.

10.6. Hazardous By heating and fire, irritating vapours/gases may be formed. Carbon oxides.

decomposition products

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Ingestion Swallowing or vomiting of the liquid may result in aspiration into the lungs. Droplets of the product

aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

Inhalation Vapours may cause drowsiness and dizziness. Inhalation of oil mist or vapours formed during

heating of the product will irritate the respiratory system and provoke coughing. Breathing of high

concentrations may cause dizziness, light-headedness, headache, nausea and loss of co-ordination. Continued inhalation may result in unconsciousness.

Skin contactCauses skin irritation. Prolonged or repeated contact may dry skin and cause dermatitis.

Eye contact Direct contact with eyes may cause temporary irritation.

Symptoms Irritating and may cause redness and pain. Defatting of the skin. Dermatitis. May cause eye

irritation on direct contact. Ingestion may cause irritation and malaise. Vapours may cause drowsiness and dizziness. In high concentrations, mists/vapors may irritate throat and respiratory

system and cause coughing.

11.1. Information on toxicological effects

Acute toxicity Human evidence indicates that the product has very low acute oral, dermal or inhalation toxicity.

However, it can produce severe injury if taken into the lung as a liquid, and there may be profound

central nervous system depression following prolonged exposure to high levels of vapour.

Skin corrosion/irritation Irritating to skin. Frequent or prolonged contact may defat and dry the skin, leading to discomfort

and dermatitis.

Serious eye damage/irritation Direct contact with eyes may cause temporary irritation.

Respiratory sensitisationNo data available. **Skin sensitisation**No data available.

Germ cell mutagenicityNo data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Not classified.

IARC Monographs. Overall Evaluation of Carcinogenicity

Gasoline (CAS 86290-81-5) 2B Possibly carcinogenic to humans.

Reproductive toxicity No data available.

Specific target organ toxicity -

single exposure

May cause drowsiness or dizziness.

Specific target organ toxicity -

repeated exposure

No data available.

Aspiration hazard May be fatal if swallowed and enters airways. Be aware that symptoms of chemical pneumonia

(shortness of breath) may occur several hours after exposure.

Mixture versus substance

information

Not available.

Other information Prolonged and repeated contact with used oil may cause serious skin diseases, such as

dermatitis and skin cancer.

SECTION 12: Ecological information

12.1. ToxicityToxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

12.2. Persistence and

degradability

Expected to biodegrade slowly.

12.3. Bioaccumulative potential The product contains potentially bioaccumulating substances.

Husqvarna XP Power 4 SDS EU

Partition coefficient

n-octanol/water (log Kow)

Log Kow: >3.

Not available.

Bioconcentration factor (BCF)

The product adsorbs strongly to soil. 12.4. Mobility in soil

Mobility in general The product is insoluble in water. It will spread on the water surface while some of the

components will eventually sediment in water systems. The volatile components of the product will

spread in the atmosphere.

12.5. Results of PBT

and vPvB assessment Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects Oil spills are generally hazardous to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations. Empty containers or liners may retain some

product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code 13 07 02*

Container: 15 01 04

The Waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Disposal methods/information Dispose in accordance with all applicable regulations. This material and/or its container must be

disposed of as hazardous waste.
